

# Covid-19 Memorial

The public is welcome to visit our Covid-19 Memorial beginning **Tuesday, March 23 through the end of April.**

**Garden of Meditation, Gate One**  
Rose Hills Memorial Park  
3888 Workman Mill Road, Whittier

Our Covid-19 Memorial serves as a place of healing, a place of comfort and a place to remember.

With over 1,600 Rose Hills families directly affected and over 20 million Southern California residents impacted, we felt the need to create a space for our community to find comfort in knowing they are not alone.

## *Features at the Memorial*

A **grove of trees physically distanced** to represent our experience over the past year.

Over **1,600 reflective hearts and stars** on the trees, each **representing a loved one** lost to Covid-19 and one that Rose Hills is honored to serve. Their reflective light serves as a reminder of those who once brought light into our lives.

## *Support for our Community*

We invite families and community members to choose a heart or star from one of the trees. **Write a message or memory** in honor of a loved one.

Place the star back on the tree so that others may find the strength, comfort and peace in knowing they are not alone.

*“There are some who bring a light so great to the world that even after they are gone their light remains.”*

As longtime members in the community, BrightView and Rose Hills have collaborated on this meaningful memorial to support our families and provide a space for healing.
